

JADWA AI

AI-Powered Business Feasibility Platform

Introduction

Turning business ideas into successful ventures requires accurate decisions before investment. However, many entrepreneurs lack access to reliable feasibility analysis tools.

Jadwa AI is an **AI-powered platform** designed to enhance business feasibility assessment through **predictive analytics**, **intelligent recommendations**, and localized **Saudi market data**.

It empowers entrepreneurs to reduce risk, maximize opportunities, and make confident investment decisions.

Methodology

- **Agile** iterative development methodology
 - **Random Forest** model for feasibility prediction
 - **OpenAI API** for intelligent recommendations
 - Deployed as a web platform on **Azure**
- Technologies Used:**     

Experiments

- | | |
|--|---|
| Model Used <ul style="list-style-type: none">• Random Forest Classifier | Deployment <ul style="list-style-type: none">• Live Website• Hosted on Microsoft Azure |
| Performance <ul style="list-style-type: none">• Accuracy: 84%• ROC-AUC: 0.88 | Visibility <ul style="list-style-type: none">• Indexed on Google Search• 183 Organic Clicks• 508 Impressions |

Conclusion

- Jadwa AI transforms business ideas into confident investment decisions.
 - Powered by machine learning, generative AI, and Saudi market insights.
 - Successfully built, tested, and deployed in a real-world environment.
- Jadwa AI is more than a tool — it is a smart decision partner for entrepreneurs.**

AI-powered feasibility insights for your project

Project Overview

Project: Corporate Gifting Platform for Employee Appreciation

Feasibility Probability: **79.13%**

Decision Threshold: 0.75

Status: **Feasible**

AI Recommendations

Note: Final decision uses probability (0.7913) vs threshold (0.75); therefore the project is feasible.

- Summary
The project is feasible with an estimated success probability of 79% against a decision threshold of 75% because it meets clear corporate needs in Riyadh (digital ordering, branded bulk gifts, scheduled delivery) and targets HR teams across SMEs, corporates, and government. Focus execution on lean operations, supplier partnerships, and targeted corporate sales to convert demand into steady contracts.
- Strengths
 - Clear market fit: HR pain points (onboarding, recognition, events) are well matched by branded, bulk, scheduled gifting.
 - Digital convenience: fast online ordering and customization appeals
