WHY DHALLAH?

Stop searching, start finding. Dhallah is an AI-powered app that instantly reconnects people with their lost belongings across Saudi Arabia. Our smart technology automates the matching process, bringing your essentials back to you faster than ever.

PROBLEM

No unified platform exists for lost items in KSA. Traditional methods are slow, unreliable, and depend on chance.

Never recovered lost items

CONCLUSION

Dhallah combines the power of Vision Transformers, multilingual NLP, and vector search to deliver the first AI-native lost-and-found platform built for Saudi Arabia, aligned with Vision 2030's digital transformation goals. Faster recovery. Higher accuracy. Smarter community.
