

1. INTRODUCTION

Nuqtat Wasl is a real estate platform that connects property owners directly with buyers/renters without any intermediaries.

Our mission is to empower users with transparent, user-friendly tools that enable direct communication, simplify the real estate process, and build trust in the Saudi real estate market.

2. PROJECT MOTIVATION

We chose this idea to address the key challenges in the real estate market, particularly the presence of intermediaries, lack of transparency, and limited direct communication.

- ✓ Solve the problem of intermediaries by enabling direct peer-to-peer communication.
- ✓ Provide a secure and transparent platform for all real estate dealings.
- ✓ Empower users to connect, communicate, and transact with confidence.
- ✓ Support the digital transformation goals of Saudi Arabia and align with Vision 2030.

3. KEY FEATURES

- Property Listings**
Browse and view property details.
- Advanced Filtering**
Search by price, location, property type, and more.
- Verified Accounts**
Build trust with verified users and agents.
- Direct Communication**
Contact property owners directly via chat.
- No Intermediaries**
Direct peer-to-peer platform with no brokers or agents in between.
